INFLUENCING THE FUTURE OF HEALTH CARE

As we reimagine pharmacy management, we're focused on changing health care for the better through connected, values-driven partnership that puts people and their health at the center of everything we do.

SAVE YOU MONEY

YOUR NEEDS

YOUR HEALTH

Lowering drug costs

Effective drug lists are one of the best ways to ensure the lowest total cost of care. We curate the right drugs while removing those that are medically unnecessary or have clinically appropriate, cost-effective alternatives.

Managing specialty

Specialty drugs are changing lives for the better, but they are also costly for the plans and members who pay for them. We offer a new approach that can help drive savings and better control.

Optimizing drug access

Channel optimization means our clients can choose any solutions that meet their needs, and members can get their medicine the way they want it — and at the lowest cost.

ADDITIONAL BENEFITS

What is Wholeistic™ Coaching?

We have partnered with US HealthCenter to offer free Wholeistic™ Health Coaching. Wholeistic™ Health Coaching is a telephonic health management and improvement program providing you with a personal health coach who will work with you on an appointment basis to help you understand and manage your health and your families health.

You can work one-on-one to manage your health, lower your health risk(s), and improve your overall wellbeing. Typical health conditions or topics addressed include stress management, high blood pressure, cholesterol, diabetes, weight, smoking cessation, allergies, asthma, heart disease and cancer.

CASE MANAGEMENT

If you are experiencing a complex medical condition or a catastrophic illness or accident, our case management program can help.

ADVOCATE, COORDINATE & ENCOURAGE

Blue Cross and Blue Shield of Nebraska case managers are registered nurses able to assist you with cancer treatment, transplants, high-risk pregnancy, children with special needs, traumatic injuries, and many other complex conditions.

Our case managers do not replace the care you receive from your health care providers however, they can:

- > Advocate for you and assist you in making informed health care decisions
- > Coordinate your care plan with you, your healthcare providers, and other relevant caregivers (including family members)
- > Provide information to help you understand your health insurance benefits
- > Identify and refer services and resources to meet your needs
- > Encourage involvement in your treatment program and empower you to manage your condition
- > Contact you periodically to assure your needs are being met

No Cost to You

Blue Cross and Blue Shield of Nebraska's case management program is offered at no cost to you, and you may opt out at any time. The program does not affect your claims, payments, or benefits.
